UNIVERSITY

Mathematics Department Seminar

Integrating Smartboards in the Mathematics Classroom

Mrs. Emily Ricard

Associate Director of the NH-Impact Center
at Plymouth State University

Hyde Hall Room 349

Tuesday February 23rd 4-5

Refreshments at 3:30 pm

Abstract:

Many teachers and students are curious about interactive whiteboards but are daunted by the steep learning curve to proficient use of the technology. This seminar will showcase some of the ways a self-described techno-phobe integrated the SmartBoard, Geometer's Sketchpad, and Virtual TI into her secondary math classroom.
