

# The Undergraduate Mathematics Resource Center

## A place to learn

Sponsored by the Department of Mathematics

Beginning Wednesday January 16<sup>th</sup>, the Department of Mathematics is offering any undergraduate enrolled in any course offered by the department (i.e., any course "MATH xyzq") a place to obtain additional help with their mathematical studies. This Undergraduate Resource Center will be staffed by graduate students from the Department of Mathematics who will be there to help students in both lower and upper division courses.

The Center is the place for you if you want clarification on some mathematical concept or technique, but not if you want someone to do your homework for you. (If you differentiate  $x^2$  for a MATH student, she'll have her HW for the day; if you teach her to UNDERSTAND the derivative, she'll have her HW for life!)

The Center is there for you so USE IT!

Location: MATH 175 (first floor of the Mathematics building)

Hours of operation (Beginning Wednesday, January 16th )

Monday - Thursday: 8 A.M. - 6 P.M.

Friday: 8 A.M. - 2 P.M.
